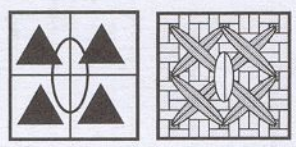
Instructions for Eyes

When instructions read:
"Add a little white stitch to eyes with 1 strand where marked 0.", make a short stitch that just covers the intersection.

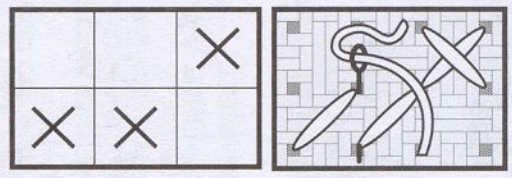


Special Notes

1--Read special instructions on this page.
2--French Knots: Use 1 strand of floss and wrap the needle once.

Cross Stitch Instructions

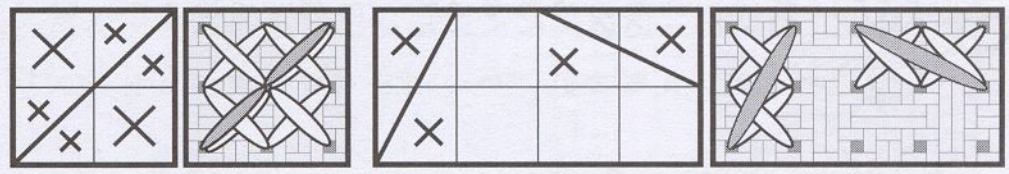
Full Cross Stitch



Be sure that all of your stitches lie in the same direction. Bottom stitches should lie from bottom left to upper right and top stitches from bottom right to upper left. Work the stitches from the bottom to the top of the stitch, from left to right, then cross them as you work from right to left, still coming up at the bottom of each stitch and going down at the top.

Full Stitch with Backstitch

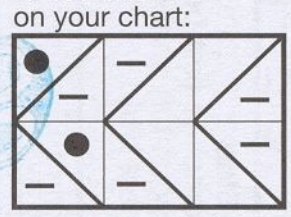
When there is a backstitch over one or two squares and the symbol is the **same** on either side of the backstitch, make a full cross stitch in that square.



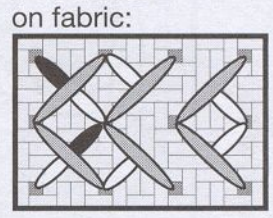
Add the backstitch last in the color indicated in the instructions.

1/4 Stitch

1/4 stitches on your chart:



1/4 stitches on fabric:

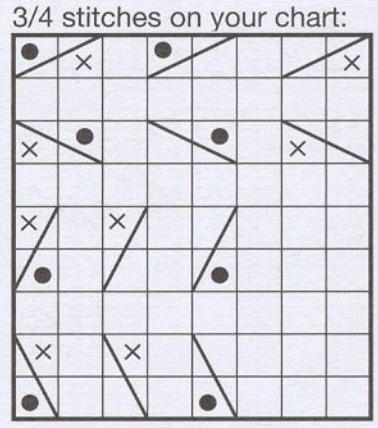


Helpful Hints:
1. Stitch from corner to center using the color indicated by the symbol.
2. Backstitch last in the color indicated in the instructions.

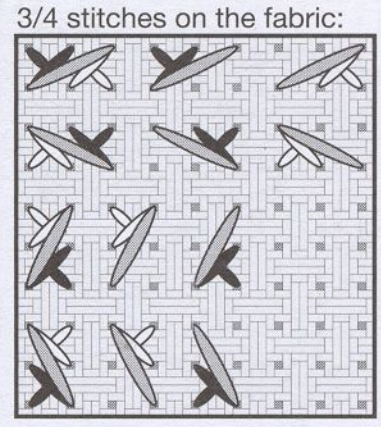
Special Note: If there are NO backstitch instructions given, stitch the backstitch line in the same or most predominant color in that area of the design.

3/4 Stitch

3/4 stitches on your chart:



3/4 stitches on the fabric:



Helpful Hints:
1. If the symbols are different on either side of the backstitch or there is a symbol on just one side of the backstitch, this will indicate that 3/4 stitches should be used in the color indicated by the symbol as shown on left.

2. Add the backstitch last in the color indicated in the instructions.

Backstitching Instructions

Backstitching (BS) is a part of some designs as outline or as lettering. The purpose of the backstitch is to form a continuous line with each stitch touching. It may travel in any direction.
